SUMMARY

Product leader with 8 years building and scaling B2B marketplaces and commerce platforms across healthtech, quick commerce and logistics. Took a 0-to-1 marketplace category to INR 1.28Cr GMV, recovered INR 2.2Cr/month in losses by diagnosing last-mile fraud across 2M+ shipment records, and delivered a warehouse management system across 50 dark stores. Strongest where the problem is still ambiguous — identifying the real constraint, building the business case, and driving delivery across functions.

EXPERIENCE

Program Manager, Product Marketplace — Medikabazaar (Healthtech), Mumbai Jan 2025 – Jul 2026

Owned a 0-to-1 product charter, scaling a new marketplace category to INR 1.28Cr GMV.

- Launched a 0-to-1 ophthalmology marketplace category to INR 1.28Cr GMV by identifying seller financing — not supply — as the true adoption blocker, then building an EMI-led commercial model with Siemens Financial Services.
- Defined the category roadmap by prioritising and onboarding 12 OEM partners and 200+ SKUs, expanding the seller ecosystem and assortment depth.
- Designed and launched a CRM-integrated AI lead-qualification workflow, reducing unqualified enquiries by 80% and lifting consistent high-value sales.
- Launched automated fulfilment exception monitoring and ownership workflows cross-functionally, cutting supplier turnaround time 50% and sustaining 92% SLA adherence.
- Negotiated commercial partnerships and exclusive online selling rights across 12 OEM and third-party partners, strengthening catalogue differentiation against competing marketplaces.

Process Excellence Manager, Product Operations — Zepto (Quick Commerce), Gurgaon Jul 2024 – Jan 2025

Owned Warehouse Management System delivery across 50 dark stores.

- Led end-to-end WMS rollout across 50 dark stores, improving order accuracy from 97.2% to 98.8% and picker productivity by 18%.
- Partnered with product, engineering and operations to validate workflows, run UAT and drive adoption across 200+ users without disrupting live customer orders.
- Defined launch-readiness metrics and rollout playbooks, enabling 18 new dark stores to hit 100% Day-1 operational SLA.
- Designed peak-volume contingency plans across inventory allocation, workforce planning and partner coordination, sustaining 98.1% on-time delivery through 2.5x demand spikes.

Program Lead, Logistics & Trust — Udaan.com (B2B Marketplace), Bangalore Jul 2021 – Feb 2024

Cut Return-to-Origin losses by INR 2.2Cr/month through product-led discovery.

- Identified last-mile fraud as the root cause of INR 2.5Cr/month RTO losses by analysing 2M+ shipment records, aligning stakeholders on a new trust strategy.
- Built the business case for a tamper-proof tracking solution by quantifying financial impact, validating feasibility through pilot results and securing leadership approval for phased national rollout.
- Drove cross-functional delivery of tamper-proof tracking (TPID) across 14 warehouses, reducing monthly RTO losses from INR 2.5Cr to INR 30L — INR 2.2Cr/month recovered.
- Defined success metrics and shipped real-time Power BI dashboards replacing manual reporting, improving last-mile delivery speed 20% and reducing customer escalations 30%.

City Manager, Growth & Operations — EatClub (D2C Food Commerce), Bangalore Jan 2018 – Sep 2020

Scaled consumer growth and operations across a multi-outlet food commerce business.

- Scaled city revenue from INR 4Cr to INR 5Cr/month by launching a new consumer brand across 33 outlets, coordinating commercial rollout, operations and go-to-market.
- Grew single-outlet revenue from INR 12L to INR 23L/month within six months by optimising menu availability, production readiness and fulfilment.
- Built automated demand forecasting across 33 outlets, reducing food wastage from 9% to 8% of revenue and improving on-time delivery SLA from 90% to 95%.
