Mumbai, India

Eight years building and scaling B2B marketplaces and commerce platforms across healthtech, quick commerce and logistics. Took a 0-to-1 marketplace category to INR 1.28Cr GMV, recovered INR 2.2Cr a month in losses by diagnosing last-mile fraud across 2M+ shipment records, and delivered a warehouse management system across 50 dark stores. Strongest where the problem is still ambiguous — finding the real constraint, building the business case, and driving delivery across functions.

EXPERIENCE

Program Manager, Product Marketplace

Jan 2025 – Jul 2026

Medikabazaar · Healthtech · Mumbai

Owned a 0-to-1 product charter, scaling a new marketplace category to INR 1.28Cr GMV.

- Launched a 0-to-1 ophthalmology marketplace category to INR 1.28Cr GMV by identifying seller financing — not supply — as the true adoption blocker, then building an EMI-led model with Siemens Financial Services.
- Onboarded 12 OEM partners and 200+ SKUs against a prioritised category roadmap, expanding the seller ecosystem.
- Shipped a CRM-integrated AI lead-qualification workflow, cutting unqualified enquiries by 80%.
- Launched automated fulfilment exception monitoring, cutting supplier turnaround time 50% at 92% SLA adherence.
- Negotiated exclusive online selling rights across 12 partners, strengthening catalogue differentiation.

Process Excellence Manager, Product Operations

Jul 2024 – Jan 2025

Zepto · Quick commerce · Gurgaon

Owned Warehouse Management System delivery across 50 dark stores.

- Led end-to-end WMS rollout across 50 dark stores, improving order accuracy from 97.2% to 98.8% and picker productivity by 18%.
- Drove adoption across 200+ users through UAT and workflow validation without disrupting live customer orders.
- Defined launch-readiness metrics and rollout playbooks, taking 18 new dark stores to 100% Day-1 SLA.
- Designed peak-volume contingency plans, sustaining 98.1% on-time delivery through 2.5x demand spikes.

Program Lead, Logistics & Trust

Jul 2021 – Feb 2024

Udaan.com · B2B marketplace · Bangalore

Cut Return-to-Origin losses by INR 2.2Cr a month through product-led discovery.

- Identified last-mile fraud as the root cause of INR 2.5Cr/month RTO losses by analysing 2M+ shipment records.
- Built the business case for tamper-proof tracking — quantified impact, proved it in pilot, secured leadership approval for phased national rollout.
- Drove delivery across 14 warehouses, reducing monthly RTO losses from INR 2.5Cr to INR 30L.
- Replaced manual reporting with real-time Power BI dashboards, improving last-mile speed 20% and cutting escalations 30%.

City Manager, Growth & Operations

Jan 2018 – Sep 2020

EatClub · D2C food commerce · Bangalore

Scaled consumer growth and operations across a multi-outlet business.

- Scaled city revenue from INR 4Cr to INR 5Cr a month by launching a new consumer brand across 33 outlets.
- Grew single-outlet revenue from INR 12L to INR 23L a month within six months.
- Built automated demand forecasting across 33 outlets, cutting food wastage from 9% to 8% of revenue.
